

Vuokatti Arena: 11am - 8pm

Have fun with the European Young Olympic Ambassadors in Vuokatti!

| | | |
|---------------------|--|--|
| FACILITATORS | Human Bingo | Each athlete is given a sheet with questions arranged as in a game of bingo. The athletes must find fellow athletes who have this experience or trait. |
| | Trust Game | Teamwork between athletes by the virtue of blind navigation from one to the other athlete through an obstacle course |
| | Blind test | It is a 2-person activity during which blindfolded contestants from both teams are given an item from a sport (for example an ice hockey puck or mountain-skiing goggles) and they have to guess which sport it is from and what item it is. Quickest to guess all of them right wins |
| | Sports Date | Athletes get a chance to have short conversations about different sports and olympic values. The aim of the activity is for the athletes to inspire and educate each other with a fun format. |
| | Flag/Capital city of each country | Participants will have an array of cards in front of them with countries, their flags or capitals written on the back and their job is to correctly answer each of those geographical questions by pinning the answers to a map. The aim of this activity is to educate the athletes about the countries participating in EYOF and connect with people from different countries |
| | Spirit of Sport Quiz | An in person quiz about the spirit of sport, olympism, fair play and doping. The papers with answers from each contestant will be collected by the organiser and results given after reviewing the answers. The winner will be awarded with a prize. |
| | Photo Booth | Athletes having their pictures taken whilst holding an Instagram picture frame. This is a fantastic activity which results in the athletes posting the pictures to Instagram and making them available for us to repost to promote the programme. These pictures can be taken with team mates or athletes from another country |
| REPORTERS | Podcast | EYOF Podcast is a long term project, which is an informative podcast for youth athletes to raise awareness on various topics, such as Olympic values, health and sports, and other important topics supporting athletes, participants and the upcoming EYOF. The Podcasts will be done online by 3 ambassadors and usually with one other individual who provides insight to one of the aforementioned topics. |
| | Chat with champions | An alumnus will lead the talk with the athlete, asking the questions about their careers, and athletes can ask the questions from the champions. It will be followed with some pictures and videos on the big screen whilst on one the ambassadors will go live on Instagram so athletes in Lahti can ask the questions too. |
| | Behind the scenes EYOF | An ambassador going around recording the behind the scenes of the planning and delivering of EYOA activities. The purpose is to show how the programme is in action for future editions. |

| | | |
|------------------|------------------------------------|--|
| | Today at the festival | An Ambassador will go around the different activities/ venues/ competition that is taking place in one day, and show what is going on, facilities, village tour, etc. Bringing the destination to life through the screen for those who cannot make it to Vuokatti. |
| | Learn a sport in 10 seconds | The ambassadors will ask athletes from each of the sports of the Vuokatti EYOF to give a simple and quick explanation of their sport which will then be posted to our social media. The sports will be Alpine skiing, Biathlon, Cross Country, Figure Skating, Ice Hockey, Nordic Combined, Short Track Speed Skating, Ski Jump, Snowboarding. |
| | A day in life of an Athlete | Following an EYOF athlete from the moment s/he wakes up to the evening, thus bringing a unique insight for fans into the life of an EYOF athlete in Vuokatti. This will require finding an athlete who would be comfortable with sharing one of their days on social media. |
| | Get to know the athlete | Series of mini short interviews (1 min or less) speaking to individual/group of EYOF athletes about them. This will encourage athletes to engage with ambassadors and provide exciting and fun content for our social media channels. |
| PROMOTERS | Kahoot! Quiz night | Using the Kahoot quiz application, the ambassadors will share the numbered code with all the athletes who have gathered around the booth and project the questions for everyone to see. The questions will be about the Winter Olympic sports of the Vuokatti EYOF and olympic values. |
| | Promoting flyers/posters | The ambassadors will walk around the Olympic village and the sports areas and hand out promotional flyers and hang up posters to encourage athletes to come to the EYOA booth to take part of other activities. |
| | Heads up | Heads up is a game very similar to charades. It is played by a pair or a team. One of the participants holds a piece of paper (which they haven't seen) with a famous olympian or a sports item on their forehead which the others then need to explain for them to guess. |
